

This policy establishes the guidelines for how yeswetrust sustainability activities should be set in the operational and commercial backgrounds. This policy applies to all employees, subsidiaries, contractors, and other critical business partners.

yeswetrust fundamental mission is to promote sustainable growth internationally by providing multi-dimensional opportunities for its stakeholders to address environmental and social issues and create a business culture where sustainability is at the heart of operations.

yeswetrust will reinvest its funds in projects that improve or benefit the environment and are aligned with United Nations Sustainable Development Goals (UN SDG). Secondly, yeswetrust will support education for sustainability and address the B2C market to expand its reached audience with a goal to have a bigger impact and collective actions from the yeswetrust community. The company implements various in-APP features that support and guide its users toward more sustainable consumer choices. In conclusion, part of the funds will be allocated to non-profit organisations to support untackled UN SDGs or those that are in a higher demand for business actions.

Four principles

Stakeholders Transparency

Due diligence for voluntarily agreeing to disclose information on listed in-store products followed an examination of the Life Cycle Assessment and compliance with local ILO conventions.

Educate, encourage and support stakeholders on disclosing non-financial data and implementation of sustainable business practices through mandatory reporting or disclosing App features.

Influencing Communities

Direct and indirect promotion of conscious consumer behaviour through the yeswetrust application.

Education for sustainability is a core activity to equip people with professional and personal knowledge around the integration of UN SDG into their livelihood.

Charitable Activities

Fund accredited locally, regionally, or internationally NGO that addresses urgent needs for achievement of the Agenda 2030.

Environmental Protection

yeswetrust aims to monitor, report and improve its environmental impact in areas that are under the company's influence.

ESG compliance as per EU Growth Prospectus on Security token offering

The Issuer's business objectives are sustainable business decisions in accordance with Art. 9 Taxonomy Regulation. The strategy integrates punctually sustainability criteria within each business decision. Sustainability means the simultaneous pursuit of economic profit and longtime creation of value while respecting equally nonfinancial factors. For the concrete evaluation the Issuer may consider at its sole discretion e.g. aspects as the business strategy, corporate governance and transparency as well as the range of offered products or services of a company or counterparty. Purpose of the evaluation is primarily the determination of exclusions based on especially critical factors identified by the Issuer. Therefore, the Issuer may use data of third parties as well as its own qualitative and quantitative analysis. However, the Issuer will not use any indices as reference data. The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities. As per 07.08.22 there have not been any past investments apart from the above mentioned. Therefore, it is not possible to provide further ESG information.

Non-financial disclosure at ywt as per EU ESG policy regulations

Committed with provided by the European Parliament and the Council Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 yeswetrust economic activities contribute substantially to one or more of the environmental objectives set out in Article 9 in accordance with Articles 10 to 16 of European Parliament and the Council Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment. In addition, voluntarily, but not guaranteed, align produced reports with the screening criteria of the EU framework.

Frameworks

yeswetrust collects, measures and analyses internal and external sustainable activities aligned with United Nations Sustainable development goals and it's targets, using [Global indicator framework for the Sustainable Development Goals and targets of the 2030 Agenda for Sustainable Development](#) following [Fundamental Principles of Official Statistics.pdf](#) and applying computing methods based on [SDG Indicators Metadata Repository](#).
